

# BODY DEL SOL MEDICAL SPA

**AYDE MENDIBLES,**  
**MBA, LE, LVN**  
FRESNO, CALIFORNIA

*Investing in yourself is not  
selfish—it's essential to your  
survival and your  
well-being.*

#### **MOST REQUESTED PROCEDURES**

Laser hair removal, cosmetic injections, and CoolSculpting! Interest and demand for non-surgical body treatments continues to rise. Procedures and treatments today are safe, effective, and convenient. With most requiring little to no recovery time, people can undergo laser, fat-reducing CoolSculpting, or anti-aging treatments on their lunch break or commute home.

#### **WHY IS GIVING BACK SO IMPORTANT?**

I believe giving encourages a culture of giving. October marks our Annual Cancer Care Event—a day we dedicate complimentary spa services and pampering to patients currently undergoing cancer therapy. Each year, more and more local businesses approach us to donate their time and services, making this event larger and greater every year.

#### **WHAT ARE SOME NEW SERVICES THAT YOU ARE OFFERING?**

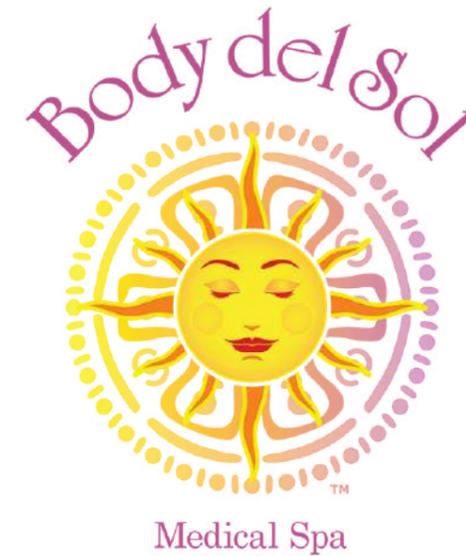

SkinPen with Platelet-Rich Plasma (PRP). Although we've been micro-needling for over four years, we kicked it up a notch by upgrading to SkinPen, the only FDA-cleared micro-needling device in the U.S. The PRP pairing promotes healing, regeneration, and collagen production in skin cells, keeping skin plump and supple. We're also a member of the Vampire Facial Provider Group to perform the Vampire Facial® and Vampire Facelift®.

#### **WHAT I STAND BY**

The main ingredient of our success is our team. There is nothing more powerful than my staff's passion and initiative to make our guests happy. I firmly believe in providing advanced education and certifications so they are constantly engaged in new technologies and procedures.

# S

ince our doors opened in 2010, we have made it our mission to provide our clients with proven results by making them look and feel younger and healthier. We offer individually tailored aesthetic and medicinal spa treatments based on your personal needs and goals. As the Central Valley's first "green" medical spa, we are bringing nature and science together for a more naturally beautiful you—and more beautiful planet.
